Benchmark and Intralox Announce License Agreement

Benchmark Supplies Intralox Activated Roller Belts (ARB) 90-Degree Transfer S400

STATHAM, Ga., August 27, 2019 – Benchmark, a leader in distribution and loading solutions to the food and bakery industries and a product brand of ProMach, announces a new license agreement with Intralox, a comprehensive conveyance solutions provider specializing in modular plastic conveyor belts and related services and equipment.

Under the agreement, Benchmark expands their level of offerings to now include the Intralox ARB 90-Degree Transfer - Passive Off and Passive On conveyors. This technology allows a single conveyor Roller Belt, comprised of freespinning rollers, to contact only conveyed objects. Additional Intralox offerings Benchmark utilizes includes the ARB 30-degree Aligner S400 and ARB 90-degree Rollers Dual Belt Turner S400.

Intralox's patented technology ensures higher productivity with accurate and gentle product orientation, changes, and positioning for a variety of package dimensions. Its compact system layout minimizes jams, enforces operating safety without guarding, and reduces maintenance time and costs all while eliminating sensors and controls.

"We are excited to announce our agreement with Intralox as we continue to help our customers succeed in today's competitive marketplace. We look forward to this partnership as we work together in strengthening the support for our customers," says Mike Rupert, General Manager of Benchmark.
