Pack Up To 20 Cases Per Minute with the New 2-Person Work Cell with Pack Control and PD50 Product Conveyor on Wexxar Bel's Enhanced Flex E Pack System

See the Wexxar Bel Flex E Pack form, pack and seal system in action in booth C-2824 at PACK EXPO 2019 in Las Vegas.

RICHMOND, British Columbia, September 20, 2019 – [Wexxar Bel](#), a product brand of [ProMach](#), introduces a new Flex E Pack system, upgraded with double the output and provides additional options to customize an automated hand-pack solution perfect for any business. Wexxar Bel will be demonstrating the enhanced capabilities of the Flex E Pack system in booth C-2824 at PACK EXPO 2019, Sept. 23-25, at the Las Vegas Convention Center.

The Flex E Pack is a modular engineering solution that provides end users with the flexibility to integrate the right case former, product delivery conveyor, work cell and sealer that best meets their applications.

For the first time ever, PACK EXPO attendees will see the Flex E Pack system doubling its output to 20 cases per minute, while also seeing how a two-person work cell can best utilize *Pack Control* to hand pack product into cases as efficiently as possible.

With Pack Control, work cells can be individually activated, depending on the availability of operators. Pack Control provides each cell the ability to adjust their line with minimal impact to overall production rates.

“If you’re in the early stages of automation and trying to implement a hand-pack solution, the Flex E Pack system gives you the flexibility to assemble the necessary pieces that best fit your application,” Sander Smith, Product Manager, Wexxar Bel. “This is definitely a packing line you need to see this year at PACK EXPO and learn how it can help solve your end-of-line issues.”

The Flex E Pack system at PACK EXPO includes the Wexxar WF20 Fully Automatic Case Former/Case Erector. The WF20 produces up to 20 cases per minute and is available in tape or hot melt glue sealing. The Flex E Pack system can be paired with any Wexxar case former, depending on application needs.

Case sealing on the Flex E Pack system at PACK EXPO is handled by the BEL 252 Fully Automatic Top & Bottom Tape Case Sealer. The BEL 252 features the Uni-Drive System, which powers both side belts from a single motor, keeping them synchronized to provide a square seal even after prolonged use. Additionally, the line includes a PD50 bi-directional conveyor, which enables products to flow in opposite directions from the same conveyor platform.

The Flex E Pack is ideal for packaging lines with variable product flow and packing situations due to:

- Frequent case size changes
- Different case sizes and pack configurations
- Limited floor space
- Manual inspection of products
- Limited technical staff
- High price of automated case packers and erectors
- High SKU volume

Features and benefits of the Flex E Pack system include:

- All-in-one, integrated case forming, packing and sealing system
- Up to 20 cases per minute
- One or two person packing station
- Ergonomic industrial foot switch
- Snap Folder safe flap folding technology
- User-friendly touch screen controls
- Illustrated, color-coded adjustment instructions

To see how the Flex E Pack can reduce your labor costs while increasing production output, visit Wexxar Bel in booth C-2824 at PACK EXPO. For more information on the Flex E Pack, visit www.wexxar.com. Wexxar Bel is a ProMach brand.

About Wexxar Bel

At Wexxar Bel, corrugated container packaging applications are limited only by the imagination. Our Wexxar case formers and case sealers have been installed in nearly 40 countries and consistently bring customers the lowest cost of ownership and the highest standards of safety. Wexxar also offers the Bel line of corrugated box sealers, tapers, and packing systems as well as the IPak line of tray and bliss formers, stackers, and sealers systems. As part of the ProMach End of Line business line, Wexxar helps our packaging customers protect and grow the reputation and trust of their consumers. ProMach is

performance, and the proof is in every package. Learn more about Wexxar Bel at www.Wexxar.com.

About ProMach

ProMach is a family of best-in-class packaging solution brands serving manufacturers of all sizes and geographies in the food, beverage, pharmaceutical, personal care, and household and industrial goods industries. ProMach brands operate across the entire packaging spectrum: filling and capping, flexibles, pharma, product handling, labeling and coding, and end of line. ProMach also provides Performance Services, including integrated solutions, design/build, engineering services, and productivity software to optimize packaging line design and deliver maximum uptime.

ProMach designs, manufactures, integrates, and supports the most sophisticated and advanced packaging solutions in the global marketplace. Its diverse customer base, from Fortune 500 companies to smaller, privately held businesses worldwide, depends on reliable, flexible, technologically advanced equipment and integrated solutions. ProMach is headquartered near Cincinnati, Ohio, with manufacturing facilities and offices throughout the United States, Canada, Mexico, Brazil, Europe, United Arab Emirates, and China. For more information about ProMach, visit www.ProMachBuilt.com.
