Wexxar Bel Debuts New DELTA 1 Fully Automatic Case Former with MXM System and Automatic Case Size Adjust at Pack Expo 2019

RICHMOND, British Columbia, September 17, 2019 – [Wexxar Bel](#), a product brand of [ProMach](#), is debuting at Pack Expo 2019, September 23-25 in the Las Vegas Convention Center, a new modular expandable magazine system, the **MXM**, to be used with their **DELTA 1 Fully Automatic Case Former**, along with a hot melt case adhesive option. **Booth C-2824**

Streamlining the loading process with easier case loading is accomplished with the all-new, patent-pending ergonomic-to-load MXM* design that increases the capacity of case blanks in the machine. The open design of the MXM allows for manual case loading that can be easily adapted to automatic loading. Continuous operation and uptime are achievable with minimal labor-intensive manipulation of cases during loading.

DELTA 1's auto-adjust technology minimizes the level of operator engagement by automating many of the major adjustments on the case former, limiting human factors that impact machine setup and changeover. The updated loading features, along with the auto-adjust technology, work together in optimizing operator productivity by freeing up time spent on the machine and then allowing for other areas within the plant to be addressed.

"The operator doesn't need to go in and mechanically move things or interpret rules on the machine to bring it into adjustment. They pick from the menu and the DELTA 1 makes the adjustment and it's good to go," says Sander Smith, Product Manager, Wexxar Bel. "What this does is make changeovers predictable and repeatable in terms of time and adjustments. It's done automatically, and in only a few minutes."

Smith also says the automatic programmable capabilities of the DELTA 1 is a great asset to a packaging line, especially for food manufacturers and other industries that have operators with varying levels of experience with machines. Safety also increases due to less operator interaction.

The DELTA 1 Fully Automatic Case Former with MXM System is also being debuted with hot melt sealant at Pack Expo. Although available in both hot melt and tape, hot melt, because of certain sealing and holding properties, is commonly the adhesive of choice for medium to larger-sized companies that operate 24/7.

Features and benefits of the new DELTA 1 Fully Automatic Case Former with MXM System include:

- Wexxar's exclusive patented Pin & Dome** case opening technology that provides reliable case separation, squaring and forming
- Dynamic flap-folding for consistent square cases, even for recycled or double-wall cases
- Wexxar's WISE smart controls system allows for easy machine operation, troubleshooting and maintenance; servo-drive for maintenance free, efficient and precise movements
- Fully interlocked guard doors and emergency stops on both sides of the machine
- Flex speed with remote demand caters speed ranges to each case size or style
- Toolless, color-coded size changeover in minutes with user-friendly, on-machine pictorial guides
- Corrosion resistant and paint free frame construction
- HMI color touchscreen interface

To see how the new DELTA 1 Fully Automatic Case Former with MXM System can improve your packaging line's automation and output, visit Wexxar Bel in booth C-2824 at Pack Expo. For more information on the DELTA 1, visit www.Wexxar.com.

*US Pat. Application No. 16/111.653

About Wexxar Bel

At Wexxar Bel, corrugated container packaging applications are limited only by the imagination. Our Wexxar case formers and case sealers have been installed in nearly 40 countries and consistently bring customers the lowest cost of ownership and the highest standards of safety. Wexxar also offers the Bel line of corrugated box sealers, tapers, and packing systems as well as the IPak line of tray and bliss formers, stackers, and sealers systems. As part of the ProMach End of Line business line, Wexxar helps our packaging customers protect and grow the reputation and trust of their consumers. ProMach is performance, and the proof is in every package. Learn more about Wexxar Bel at www.Wexxar.com.

About ProMach

ProMach is a family of best-in-class packaging solution brands serving manufacturers of all sizes and geographies in the food, beverage, pharmaceutical, personal care, and household and industrial goods industries. ProMach brands operate across the entire packaging spectrum: filling and capping, flexibles, pharma, product handling, labeling and coding, and end of line. ProMach also provides Performance Services, including integrated solutions, design/build, engineering services, and productivity software to optimize packaging line design and deliver maximum uptime.

ProMach designs, manufactures, integrates, and supports the most sophisticated and advanced packaging solutions in the global marketplace. Its diverse customer base, from Fortune 500 companies to smaller, privately held businesses worldwide, depends on reliable, flexible, technologically advanced equipment and integrated solutions. ProMach is headquartered near Cincinnati, Ohio, with manufacturing facilities and offices throughout the United States, Canada, Mexico, Brazil, Europe, United Arab Emirates, and China. For more information about ProMach, visit www.ProMachBuilt.com.
